

ONCOR ELECTRIC DELIVERY COMPANY LLC
NOTICE OF PUBLIC PARTICIPATION MEETING FOR THE PROPOSED
MASCHO SWITCH - LAMESA SWITCH 345 kV TRANSMISSION LINE PROJECT

THURSDAY, FEBRUARY 5, 2026
 5:00 PM – 7:00 PM
LAMAR FORREST PARK COMMUNITY CENTER
900 S. HOUSTON AVE., LAMESA, TX 79331

Oncor Electric Delivery Company LLC (Oncor) proposes to construct a new 345 kilovolt (kV) transmission line between Oncor's existing Mascho Switch (formerly known as Clearfork Switch) and Lamesa Switch (Project). Oncor's Mascho Switch is located in Andrews County, Texas, approximately 2.0 miles southwest of the intersection of State Highway (SH) 115 and Farm-to-Market (FM) Road 181. Oncor's Lamesa Switch is located in Dawson County, Texas, approximately 1.2 miles northwest of the intersection of SH 349 and United States Highway 87. Oncor is committed to ensuring that the Project complies with the requirements of the Texas Utilities Code and the Public Utility Commission of Texas rules and policies. In support of this process, Oncor is holding a public participation meeting to solicit input and obtain information from the community about the study area and preliminary routing alternatives for the proposed transmission line. Burns & McDonnell Engineering Company, Inc (Burns & McDonnell), a consulting firm retained by Oncor for the Project, has identified preliminary alternative transmission line route links for consideration, which are shown as dashed lines on the map below. Maps with greater detail will be exhibited at the public participation meeting. Individuals attending the "come-and-go" meeting will have the opportunity to ask questions and provide comments to representatives and technical experts from Oncor, Burns & McDonnell, and Integra Reality Resources, a property abstractor retained by Oncor for this project. The preliminary alternative transmission line route links presented at the meeting are subject to modification based on information received at the public participation meeting as well as further studies. If you have any questions concerning the Project or the meeting, please contact Ms. Christine Williams of Oncor by phone at (214) 486-5841 or by email at transmissionprojects@oncor.com. For more information, please visit Oncor's website at www.oncor.com/transmissionprojects.
